

PSYCHOSOCIAL REHABILITATION BEHAVIORIAL HEALTH SERVICES

A Psychosocial Rehabilitation Program (PSR) that focuses on recovery and rehabilitation from severe and persistent mental illness. The program is designed to assist adults in reaching their goals of long-term recovery.

This program is modeled after the “Clubhouse Model”, which focuses on the strengths and abilities of its members rather than their illness. The model also focuses on the independence and self-determination of the member to recover and reach their goals. The program is designed to be a member driven program with assistance as needed from staff.

Mission

JCI is an entrepreneurial, not-for-profit corporation dedicated to empowering people with disabilities or disadvantages to succeed through training and employment.
