

Johnston County Industries *Works for you!*

CUSTOM KITTING

We don't just assemble kits...

We make the entire manufacturing process more efficient.

Our strategy for the labor-intensive task of collating materials to be distributed for varied applications is built upon on a highly efficient production system that delivers on-time, accurate results.

Our goal is 100% customer satisfaction...

While no two kits are alike, at JCI the common denominator is a purposeful, tightly-controlled, earnest assembly procedure.

Any company's success is greatly increased by effective planning and execution. By embracing state-of-the-art technology with a focused team of dedicated product assembly experts, we are able to consistently get your product to market faster and more accurately.
