Our goal is 100% customer satisfaction...

From prototyping to short-fused projects, our team delivers customized services with responsive customer service at a competitive price.

Custom Crating and Pallets

JCI specializes in custom crating solutions and takes pride in a 100% on-time delivery performance record. This critical phase of the production process requires a specific skillset and experience level that is not easily found.

Unique Millwork

We are dedicated to your custom needs at every level including unique millworking projects large or small.

Custom Prototyping

A primary advantage of collaborating with the JCI team is our ability to respond and adapt at any level. Our engineers and craftsmen can assist you in developing not only the end product but the pathway and tools needed to get there. Contact us today for a partner in realizing your ideas and production goals.
